The Facts about Methadone and Suboxone ***Free Talk Part of Hospital's Open Mind Series***

Bangor, ME –Acadia Hospital is pleased to offer another free Open Mind educational session, this one on the topic of methadone and suboxone. The presentation features Acadia Hospital Medical Director of Outpatient Services, Vijay Amarendran, MD. It is scheduled for Wednesday, November 18, 5:00 to 6:30 pm at Acadia Hospital in Bangor.

Methadone and Suboxone are two of the most studied drugs on the market, yet controversy and misinformation distracts from their therapeutic role in treating opioid addiction. Dr. Amarendran will provide facts related to the history of each drug, as well as their characteristics. He will also offer a description of how each drug is used to treat opioid addiction.

Space is limited. Please call 973-6131 to reserve your seat. Light refreshments will be provided.

Acadia Hospital is a fully accredited and licensed non-profit psychiatric hospital whose mission it is to empower people to improve their lives. For more information please go to: www.acadiahospital.org.
